

Product Sheet

Kentucky Bluegrass

Introduction

Bordeaux Kentucky Bluegrass is the result of years of testing and selection for top rated turf attributes like insect and disease resistance, dark color, fine leaf texture, persistence and heat tolerance.

Bordeaux is highly ranked under 2003 NTEP "Schedule C" lower inputs maintenance regime. It is an aggressive, low growing type that establishes quickly. Bordeaux is an ideal selection for sod production, low cut fairways, and anywhere an elite variety may be specified.

Characteristics

- Category 1, elite America type
- Very dark green genetic color
- Excellent fall & winter color
- Compact, low growth habit
- Deep rooted and heat tolerant with good drought recovery
- Good leaf spot resistance
- High statistical ranking in "Schedule C" lower maintenance regime
- Medium-fine leaf texture
- Performs well with close mowing
- Quick emergence and establishment
- Excellent stripe smut resistance
- Excellent dollar spot resistance
