 Active, Triconazole liquid. For control of fusarium patch, grey and pink snow mold, anthracnose, brown patch and dollar spot. Premis in a cost effective fungicide offering excellent systemic control with low rates and convenient packaging.

## Aliette T&O

FUNGICIDE

**ALIETTE SIGNATURE** Product Code 1148J  
**Registration # 28299 Group U** 2.26 kg  
 Active, Fosetyl AL wettable powder. Aliette is known to improve turf quality by enhancing the plants defense mechanisms and vigour. The unique two-way systemic activity is registered for control of cool season pythium, pythium blight, damping off (pythium), foliar anthracnose, and basal rot anthracnose.

**ENVIROSOL 0-2-5, 30% Quint** 10 litres  
 Registration # 2001007C Group 14  
 Product Code 0253010L

Active, Quintozene liquid.  
 For the past 30 years Quintozene has proven itself as an effective snow mold control product. Envirosol 0-2-5, w/ 30% Quintozene is a low odour, foam free, flowable, resulting in the ease of use required by today's turf professional.

**TERRACLOR FF** 10 litres  
 Registration # 27691 Group 14  
 Product Code TERRAFLOJ

With a 40% active formulation, Terraclor FF is known as a reliable, cost effective fungicide for the control of both pink and grey snow mold on all turf species including Bentgrass, Bluegrass and Ryegrass.

**SENATOR WP WSB** 8 x 200 grams  
 Registration # 27297 Group 1

Active, Thiophanate-Methyl (WSB)  
 Is a broad-spectrum, cost effective systemic fungicide now available in water soluble bags (WSB). Senator controls dollar spot, brown patch, powdery mildew and pink snow mold. It is an excellent choice for rotating with the newer classes of fungicides.

**LESCO 10-3-23 12.5% Quint** 40 lb  
 Registration # 2008010C Group 14  
 Product Code 091548

Active, Quintozene granular elite grade.  
 For effective control of pink and grey snow mold, this elite quintozene product provides excellent ground coverage.

**TERRACLOR 75WP** 15 kg  
 Registration # 07251 Group 14  
 Product Code 04680

Active, Quintozene wettable powder.  
 As one of the most cost effective ways to combat pink and grey snow mold, Terraclor 75WP continues to be a leader in this area.

**ARREST WP** 5 kg  
 Registration # 13431 Group 7, M  
 Product Code ARRESTWP

Arrest is a combination of two systemic fungicides, (Vitavax and Plantvax) plus a contact fungicide (Thiram) to control Pink and Grey Snow Mold on golf greens, fairways, bowling greens, lawns, parks, grass tennis courts, turf farms or other fine turf areas.

**RHAPSODY ASO** 9.46 litres  
 Registration # 28627 Group bio  
 Product Code 04950J

Rhapsody is the only BIOLOGICAL bactericide/fungicide to provide effective control of a wide array of both bacterial and fungal pathogens, while providing unsurpassed plant, human and environmental safety.

**VELOCITY SP** 226.8 grams  
 Registration # 28833 Group 2  
 Product Code VELOCITY

Velocity SP herbicide is a management tool for transitioning annual bluegrass (poa annua) infested turf to pure stands. It is a post emergent herbicide that will selectively reduce the presence of annual bluegrass.
