

PERENNIAL RYEGRASS

Turf Quality

Plateau is a new cultivar that exhibits excellent turf performance over a wide range of conditions and climate regions. Plateau's versatility and adaptation are exhibited by its exceptional performance in all mean turfgrass quality tables in the 2007 NTEP trials.

Improved Disease Resistance

A strong disease resistance package provides Plateau with excellent resistance to gray leaf spot, dollar spot and red thread.

Outstanding Dense Turf

Plateau is the fast establishing and durable perennial ryegrass you desire. Plateau was the top variety in NTEP 2007 trials in both spring and fall percent living cover trials.

Top Performance in Traffic Tolerance

With high test ratings in density in NTEP trials, Plateau forms a dense turf that stands up to high traffic and comes out shining.

Mean Turfgrass Quality	
NTEP Schedule A 2007 Data	
Name	Mean
Amazing GS	6.6
Plateau	6.0
