

# granulated gypsum

## + MOLASSES

### Supplemental Homogenous Fertilizer

#### GENERAL INFORMATION

- Made from 100% natural milled Gypsum.
- Granulated to provide a low dust product that reacts quickly with soil or sand media.
- Molasses provides a good carbon source for soil microbes,
- Provides soluble calcium.

#### GUARANTEED MINIMUM ANALYSIS

Calcium (Ca).....20.0%

Sulphur (S).....12.0%

#### NUTRIENT SOURCES:

- Calcium sulphate (gypsum)
- Non-Plant Nutrient: Molasses

#### SUGGESTED SPREADER SETTINGS

##### SGN-90

To provide proper distribution, calibrate spreader before application.

RATE	Accupro 2000	Scotts R8
1.0	K 1/2	K 1/2
* 3.0	O 1/2	O 1/2

\*Settings calibrated for double application with 100% overlap.

#### APPLICATION RATES:

Granulated Gypsum

Packaged in 50 lb. (22.68 kg) bags.

	lb/1,000ft <sup>2</sup>		kg/100m <sup>2</sup>	
Calcium (actual)	1.0	3.0	.48	1.44
Material	5.26	15.8	4.5	9.0
Lb/acre	228	687	450	900
Bags/acre	4.57	13.7		
Kg/ha			256	768
Bags/ha			11.3	33.8

# granulated gypsum

+ MOLASSES

## Supplemental Homogenous Fertilizer

### FEATURES

**100% of Calcium from Natural Milled Gypsum**

**Molasses**

**Removes sodium**

**Dispersible**

**Non Burning, Low Salt Index**

### BENEFITS

Provides the base cation calcium to address deficiencies common in sand media.

Provides excellent carbon source for soil microbes. Increased soil microbial activity helps reduce thatch and release nutrients held in the thatch layer.

Gypsum (calcium sulphate) helps to remove and prevent sodium build up.

Granulated Gypsum begin to disperse within minutes of irrigation for better nutrient dispersion and less mower pick-up.

Safe for use on fine turf.

### DIRECTIONS FOR USE

- Apply **Granulated Gypsum** in conjunction with a Precision nutrient program that includes an assessment of need from analytical data. Watering in is recommended to assist in working the product into the turf.
- Water following application until granules have dispersed into the turf canopy.
- For heavier rates of application, apply product in the evening and water thoroughly. A light watering in the morning is recommended prior to mowing.
- Use a clean dry spreader. Do not leave unused product in a spreader.

### STORAGE REQUIREMENTS:

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.

### DISTRIBUTED BY:

**Fertilizer with a Purpose™**
